Subject: Well Construction Project at Cresta Park

Dear Resident:

The Sacramento County Water Agency would like to express our sincere apologies for the unsightly condition of the Cresta Park construction site and to assure residents that we are taking every step necessary, within our authority, to fully restore and improve Cresta Park to better than its preexisting condition.

Due to the unusually rainy weather this spring, the drilling contractor was unable to finish their site cleanup and sod installation as soon as we had anticipated. The Water Agency is requiring the contractor's full and timely commitment to finishing the remaining contract items. The Water Agency expects the drilling contractor to finish the remaining items and fully restore the site within the next two weeks.

The Water Agency has also prepared another contract to make landscape improvements that include wrought iron fencing around the new well site, a new concrete driveway, replacement of the asphalt adjacent to the tennis courts, planting of new shrubs in new flowerbeds and placing mow strips around the old and new well site. The project will go out to bid before the end of this month with construction estimated to commence sometime in June.

If you have any questions, please call me at 875-6896.

A handwritten signature in black ink that reads "Dave Thompson". The signature is written in a cursive style.
