

Project Update

Jerrandy Court STORM DRAIN IMPROVEMENT PROJECT

February 2019

ISSUE 1

About this Newsletter

This newsletter provides current information about the Jerrandy Court Storm Drain Improvement Project. For your reference, a project location map is printed on the back of this newsletter. If you have questions, please contact the project staff listed below.

Background

The Jerrandy Court Storm Drain Improvement Project area is located in the Unincorporated Area of Sacramento County. The project area consists of approximately 105 acres of low-density residential development and farmland. It is bounded to the north by Florin Road, to the south by Danridge Dr, to the east by Gardner Avenue, and to the west by Hayward drive.

The project was initiated in response to multiple street flooding reports on Jerrandy Court over several years. In September 2017, project questionnaires were mailed out to residents and owners of properties in the project area requesting more details of the flooding history. The information provided from the surveys was used to identify problem areas and helped to design the new storm drain system.

Project Description

This project will replace the existing pipe system and drainage inlet with upsized storm drain pipe and upgraded drainage inlet. The new system will better capture and convey runoff during minor and major storm events, resulting in reduced localized street flooding. See the project map on the back of the newsletter for more detailed information.

Project Updates

The project design is being finalized and the project is scheduled for construction in summer 2019. The project went through an environmental review and was

issued an exemption. The project will be presented to the Sacramento County Board of Supervisors for approval & advertisement in March 2019.

A second newsletter will be mailed out to provide an update after public bidding. The newsletter will provide additional contact information for the construction phase of the project.

Project Schedule

- Final Plans & Specifications – February 2019
- Board of Supervisors Approval – March 2019
- Project advertisement – March 2019
- Bid Opening – April 2019
- Board of Supervisors Award – June 2019
- Construction Begins – July 2019
- Construction Ends – September 2019

All dates are tentative and subject to change
